

BATH TOWNSHIP COMPREHENSIVE LAND USE REVIEW SURVEY

The township is preparing to review and update our current land use plan, which was adopted in 2011. A steering committee will direct this project and have an important impact on Bath's future zoning map. The township has assured the community that RFQ proposals from potential consultant-planners must require a knowledge of, and be sympathetic to, the results of the Bath Township Residents' survey regarding zoning, JEDD expansion, and urban expansion. While we all can't be part of the steering committee, we can use our voices to help those on the committee create a version of the comprehensive plan that reflects our priorities and goals for Bath Township. To help ensure the new land use plan truly reflects our community's character, **please fill out this form and forward it to Planning Director William Funk: wfunk@bathtownship.org or Bath Township Hall, 3864 West Bath Road, Akron, Ohio 44333**

Your name: _____ **Address:**

In favor	Opposed	Issue
		Rezoning that allows assisted living facilities, apartment complexes, multifamily homes, twinplex rentals, suburban sized lot tract housing, etc., to Bath Township.
		Zoning that allows indoor recreational businesses (e.g., Laser Quest) to be located within residential (R2, R4) neighborhoods.
		Rezoning to add more commercial, retail, and professional projects in Bath requiring new JEDD services.
		Extending JEDD water and sewer services further into Bath.
		Creating new township services that must be supported by JEDD revenue and/or higher taxes.
